

# ThorneVet Canine Basic Nutrients

Multi-vitamin / mineral complex for all phases of a dog's life

---

**Canine Basic Nutrients offers a complete formula of essential and highly absorbable vitamins and minerals.**

## Meeting canine needs

Canine Basic Nutrients is recommended for all phases of a dog's life. It provides a broad range of nutrients, in a palatable form, to meet canine needs. With the deficiencies of modern processed food and the escalating pollution of our food, water, and environment, it is difficult to know whether dogs are getting all the basic nutrients needed for optimal health. By providing dogs with a comprehensive multi-vitamin/mineral formula early in life, or before they become ill, you can enhance the quality and length of their lives.

The macrominerals (calcium and magnesium) are provided as well absorbed and highly concentrated malate chelates. The trace minerals (zinc, copper, iron, and chromium) are supplied as the highly bioavailable glycinate chelates. Vitamins B2, B6, B12, and folate are provided in their active, tissue-ready forms (riboflavin 5'-phosphate, pyridoxyl 5'-phosphate, methylcobalamin, and 5-methyltetrahydrofolate, respectively).

## Key Nutritional Support Features

- | Optimizes canine health and vitality
- | Enhances quality of life
- | Vitamins and minerals in their most bioavailable forms

## Additional supplement support

Although Canine Basic Nutrients is a suitable nutritional support formula for dogs of all ages, you also might want to consider Canine Geriatric Basics for additional nutrient and botanical support for dogs that are older than six. Canine Basic Nutrients can be combined with other ThorneVet products that provide support for specific health concerns:

### Joint Support Formula (Formerly Arthroplex®) Provides muscle and joint support

Helps cats and dogs maintain healthy joint mobility. It also relieves soreness and stiffness and supports healthy cartilage.

V944-SC / 120 Soft Chews  
V944-P / 120 Scoops

### Gut Health Formula (Formerly Gastriplex®) Enhances gastrointestinal health

Supports the health of the whole GI tract in dogs and cats who suffer from poor digestion from food intolerance, indiscreet eating, poor quality pet foods, antibiotics, and stress.

V946-SC / 180 Soft Chews  
V946-P / 180 Scoops

### Heart Health Formula (Formerly Bio-Cardio) Promotes cardiovascular health

Combines the antioxidant potential of CoQ10 with other cardio-protective nutrients and botanicals. Because Heart Health Formula promotes oxygen utilization it enhances the animal's physical stamina.

V940-SC / 90 Soft Chews  
V940-P / 90 Scoops

### Liver Support Formula (Formerly Hepagen®) Provides hepatic support

A unique liver-protective formula for dogs and cats featuring CurcuVET. Offers comprehensive liver support. It enhances glutathione levels, supports liver cells, and aids detoxification.

V961-SC / 90 Soft Chews  
V961-P / 90 Scoops

### CurcuVET-SA50 / SA150 Helps maintain a healthy inflammatory response

CurcuVET-SA50 is curcumin formulated to help maintain the normal inflammatory response in the GI tract, liver, and musculoskeletal system of smaller dogs. CurcuVET-SA150 soft chews is for larger dogs. CurcuVET-SA150 powder is for both dogs and cats.

V938-SC / 90 Soft Chews  
V939-SC / 90 Soft Chews  
V939-P / 90 Scoops

### Immune Support Formula (Formerly Immugen®) Supports a healthy immune system

Comprehensive immune support formula that contains nutrients, botanicals, and glandulars. It activates natural killer cells, thereby enhancing an animal's innate resistance to pathogens.

V943-SC / 90 Soft Chews  
V943-P / 90 Scoops

CurcuVET® is a registered trademark of Indena S.p.A.

## Canine Basic Nutrients

Comprehensive nutritional support for dogs of all ages

1 soft chew per 25 pounds body weight daily

### PRODUCT FACTS

<b>Active Ingredients per 2-gram Soft Chew:</b>	Inositol	1 mg	Folate (L-5-Methyltetrahydrofolate from L-5-Methyltetrahydrofolic Acid, Glucosamine Salt)	10 mcg
Calcium (DimaCal® DiCalcium Malate)†	Potassium (Tripotassium Citrate)	1 mg	Methylcobalamin (Vitamin B12)	10 mcg
D-Alpha Tocopheryl (Vitamin E) (43 IU)	Beta-Carotene (1,000 IU)	601 mcg	Selenium (L-Selenomethionine)	5 mcg
Ascorbic Acid (Vitamin C)	Zinc (TRAACS® Zinc Bisglycinate Chelate)†††	500 mcg	Vitamin D3 (75 IU)	1.9 mcg
Magnesium	Vitamin A Palmitate (131 IU)	275 mcg		
(Albion® DiMagnesium Malate)††	Iron (Ferrochel® Ferrous Bisglycinate Chelate)††††	250 mcg		
Riboflavin 5'-Phosphate (Vitamin B2)	Chromium (as TRAACS® Chromium Nicotinate Glycinate Chelate)†††	20 mcg		
Calcium Pantothenate (Vitamin B5)	Biotin	10 mcg		
Niacin (Vitamin B3)	Copper (TRAACS® Copper Bisglycinate Chelate)†††	10 mcg		
Thiamin (Thiamin HCl) (Vitamin B1)				
Choline Citrate				
Pyridoxal 5'-Phosphate (Vitamin B6)
